Subject: Re: Insurance Questions

Jasmine:

I just wanted to circle back to you regarding an answer you provided for our insurance renewals. You gave me a list of the top 3 products with AERs (see your answer below.) However, the actual question (which I shortened in my follow-up; so I apologize) is the top 3 products with AER's associated with a death or permanent injury. The fact that we are looking for AER's associated with death or permanent injury may change the answer.

Our answer last year was as follows:

1. Indicate the top 3 products in terms of number of Adverse Event Reports where the product was associated with a death or permanent injury outcome. Digoxin 0.25 mg. [REDACTED]

Please let me know if we should go with the answer below, the same answer as last year (i.e. the answer above) or another answer.

Thanks and sorry if I caused confusion.

Thanks
